

Open Access Eestis: hetkeseis ja perspektiivid

Marika Meltsas
SA Archimedes

Eellugu

Detsember 2001, Budapest

- Open Society Institute korraldatud koosolekul arutasid arvamusliidrid alternatiivsete publitseerimismudelite üle
- Defineeriti mõiste “Open Access”
- Jõuti järeldusele, et eesmärgiks on “Open Access” ning eesmärgile jõudmiseks on peamised võimalikud strateegiad:
 - “Open access” ajakirjad
 - Teadusasutuste või teadusvaldkonna publikatsioonide repositooriumid

Open access deklaratsioonid

- Budapest Open Access Initiative, OSI, 2002
- Bethesda Statement on Open Access, HHMI, April 2003
- Berlin Declaration, Max Planck Society, October 2003

Open Access

- **Budapest Open Access Initiative (BOAI)**

2002

Informatsiooni piiranguteta kättesaadavus -

Vabalt tasuta internetis kättesaadav, iga kasutaja saab lugeda, salvestada, kopeerida, otsida, linkida, indekseerida, kasutada andmetöötluks ilma juriidiliste, rahaliste, tehniliste piiranguteta.

Tagada tuleb vaid autori töö terviklikkus ning autori tööle peaks viidatama.

Ainsaks barjääriks interneti olemasolu ja kasutaja võime tööst aru saada.

Open Access Project

- Open Society Institute programm
- 3 000 000 USD Open Access liikumise toetuseks
- Teavitustöö
- Registrid, kataloogid
- Grandid OA projektidele
- Kahene strateegia

Kuldne ja roheline tee

- Avatud juurdepääsuga ajakirjad
(avaldamise momendist alates)
- Repositooriumid
 - Preprintide arhiivid, self-depositing
 - Raamatukogude loodud repositooriumid

Avatud juurdepääsuga ajakirjad

1. Ajakirjad, mida subsideeritakse teadusseltside, fondide poolt
2. Vabatahtlikul, ühiskondlikul tööol / toimetamisel põhinevad ajakirjad
3. Ajakirjad, mida rahastatakse publitseerimistasude kaudu, maksab artikli avaldaja, mitte lugejad

Osaliselt avatud juurdepääsuga ajakirjad

- Autor saab valida, kas maksta publitseerimistasu, et artikkel muutuks vabalt kättesaadavaks ("Open choice" mudel)
- Ajakirja artiklid muutuvad vabalt kättesaadavaks peale nn embragoperioodi (6-12 kuud)

Publitseerimistasud

<i>Publisher</i>	<i>OA option</i>	<i>Price</i>
American Chemical Society	Author Choice	\$3000
American Institute of Physics	Author Select	\$1500-\$2500
American Physical Society	Free to Read	\$975-\$1300
American Psychological Association	[Unnamed]	\$2500- \$4000
British Medical Journal Publishing	BMJ Unlocked	\$2220-\$3145
Cambridge University Press	Cambridge Open	\$2700
Elsevier (Cell Press)	Sponsorship Option	\$5000
Oxford University Press	Oxford Open	\$1500-\$2800
Professional Engineering Publishing (IME)	Engineering Open Choice	£1700
Routledge	iOpenAccess	\$3250
Royal Society	EXIS Open Choice	\$\$2550 - \$4420
Royal Society of Chemistry	RSC Open Science	£1000-£2500
Sage	Sage Open	\$3000
Nature Communications	Open	\$5000
Taylor and Francis	iOpenAccess	\$3250

Riiklikud regulatsioonid

The Law on Science and Studies of the Republic of Lithuania (as of April 30, 2009)

- 1. In order to guarantee the quality, transparency of the scientific research and to stimulate scientific advancement carried out utilising state budget funds, all the results of the scientific activity carried out in the state science and study institutions must be made public (via the internet and by other means) if this is in agreement with laws regulating intellectual property and protection of the commercial, state or work related secrets.
- 2. Results of scientific activity carried out at non-governmental institutions of science and studies using state budget funds must be made public (via the internet and by other means) if this is in agreement with laws regulating intellectual property and protection of the commercial or state secret.

Abstract

This chapter of the report of the "Flavor in the era of the LHC" Workshop discusses the theoretical, phenomenological and experimental issues related to flavor phenomena in the charged lepton sector and in flavor conserving CP violating processes. We review the current experimental limits and the main
