I ought again to ask you &

harder for trouble you with
difficulties - which would have
been none, ^{even to} me had I not been

to lay off the iron - Yes ever
very truly

15 If you favour me with your
help - you will perhaps also
give me one word on this.

You all give (according to the
common rule) the discharge of
water from the side of an up-
= right vessel - ^{with} proportion of the
