

# **Library Promotion Services for Researchers**

Lilian Neerut

University of Tartu Library

Head of the Department of Subject Librarians

15-16/05/19

A university is just a group of buildings  
gathered around a library.

(Shelby Foote)

The most important asset of any library  
goes home at night – the library staff.

(Timothy Healy)

# Change of the ecosystem

- Research landscape has changed
- Higher education institutions have changed

# Positioning the library

- Service-provider
- Partner
- Leader

Pinfield, S., Cox, A. and Rutter, S. (2017) Mapping the future of academic libraries: A report for SCONUL.  
<https://www.sconul.ac.uk/news/mapping-the-future-of-academic-libraries>

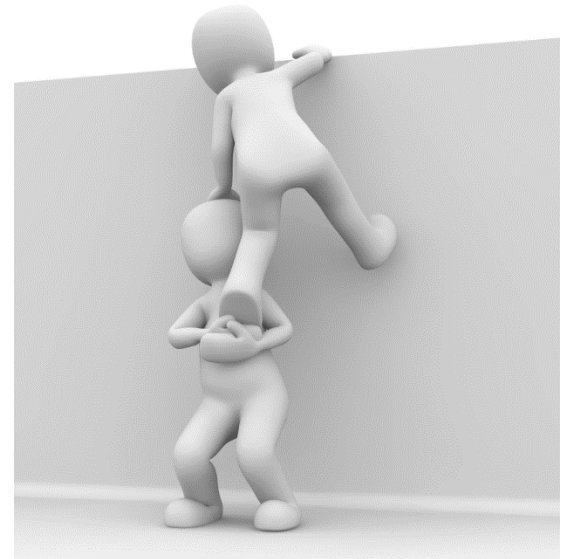

# Trust

- Communication
- Collaboration
- Communities
- Commitment

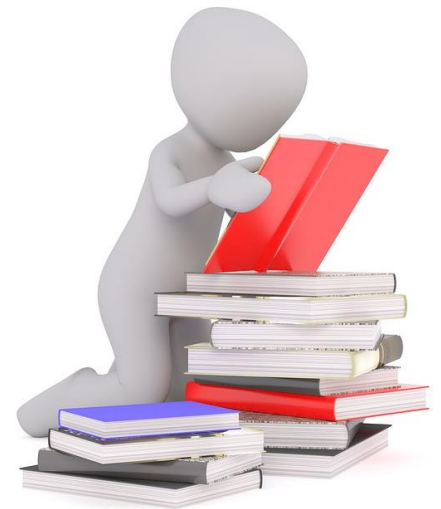

# Research support at the UTL

- “Traditional” services
- Trainings
- Open Science-related services

# “Traditional” services

- Provide access to library collections
- Provide access to e-resources
- Provide advice on databases
- Interlibrary Loans (ILL)
- Digitisation

# E-courses

- **Basics of information literacy** (Bachelor, Master's students)
- **Introduction to information research** (Doctoral students, researchers)
- **Information literacy MOOC** (for everyone)
- **EU Documentation and Databases**
- **Research Data Management and Publishing**  
(Doctoral students, researchers)
  - In Estonian and in English
  - Materials are openly available
  - Moodle study environment
  - Free elective courses for all faculties

# Objectives of the e-course for PhDs

- Research databases accessible for the University of Tartu
- Principles and strategy of information search. Search in different databases (EBSCO Discovery, Web of Science, Scopus)
- Reference managers
- Information search on the Internet
- Google Scholar. Open access journals and repositories
- Research data management

# Other trainings

- Short courses (F2F)
- Integrated courses (online, F2F)
- Research Integrity (one module)
  - Open research, open research data and FAIR data

# Open Science

- 2009 First OA seminar, [OpenAire](#) NOAD
- 2014 two Data Librarians started to develop research data management (RDM) services
- 2014 member of [COAR](#) (Confederation of Open Repositories)
- 2015 member of [DataCite](#), [Estonian DataCite Consortium](#), DOI
- 2015 UT data repository [DataDOI](#)
- 2016 Data Management Plan (DMP) advising
- 2015 first RDM e-course for PhD students
- 2018 RDM module is part of the Research Integrity Course for PhD Students
- 2018 stand-alone RDM e-course for PhD Students in Estonian (2019 in [English](#))
- 2019 Estonian Research Council makes DMP mandatory for all research grant applicants

[www.utlib.ut.ee](http://www.utlib.ut.ee)

The screenshot shows the top section of the library website. At the top left is the University of Tartu logo with the year 1632. To its right is the text "UNIVERSITY OF TARTU Library". Below this is a navigation menu with buttons for "Service", "Databases", "Open Science", "About us", "Conference Centre", and "E-bookstore". A large red arrow points from the URL above down to the "Open Science" button. Below the navigation is a main banner for an "International seminar" titled "FAIR Data - the Key to Sustainable Research" held on "9-10 April 2019". A "Register here >>" button is at the bottom of the banner. To the right of the banner is a white box containing a calendar icon for Thursday, April 4th, and the text "Today we are open 9-21". Below this, it lists locations where the seminar can be found: "University of Tartu subject libraries >", "University of Tartu Press >", "UT Counselling Centre >", "Cafe Gaudeamus >", and "Parking >".

### Databases and collections

The screenshot shows the search interface for the ESTER online catalogue. It features the "ONLINE CATALOGUE ESTER" logo, a "Keyword" search box with a dropdown arrow, and a search button with a magnifying glass icon. Below the search box is a link for "Digitised catalogues EMIL >".

### For reader

### Uudised

The news section contains two items. The first item is dated "02.04.2019" and titled "Opening Hours During Easter Holidays", accompanied by a small graphic of a purple book and green leaves. The second item is dated "26.03.2019" and titled "UT Library Organises Seminar on Research Data", with a small graphic of a purple book and a magnifying glass. The date "9-10.04.2019" is also visible below the second item's title.

## Research Data Management and Publishing

Home

1. Open Science and FAIR Data ▾
2. Data Management Plan ▾
3. Open Data Search and API-s ▾

Welcome to the course!

Do you want to learn how to make your research more effective?

How to make sure that you are more often cited and how to develop your researcher's career?

Have you heard that data are the new uranium?

Data are as valuable as uranium and it should be very carefully handled so that science and economy, and society as a whole could benefit from it.

University of Tartu Library has developed course materials to help you to get familiar with Open Science and to draw up your data management plan.

"Academic libraries are less about what they have for people. They're more about what they do for and with people."

Sari Feldman,  
Past President, American Library Association

Thank you!
