

Nr.	Framework	Github stars	Summary from GitHub	URL	Type
1	AFNetworking/AFNetworking	10375	A delightful iOS and OS X networking framework	<a href="https://github.com/AFNetworking/AFNetworking">https://github.com/AFNetworking/AFNetworking</a>	Network
2	facebook/tree20	7443	Three20 is an Objective-C library for iPhone developers	<a href="https://github.com/facebook/tree20">https://github.com/facebook/tree20</a>	Non-framework
3	RestKit	5400	RestKit is a framework for consuming and modeling RESTful web resources on iOS and OS X	<a href="https://github.com/RestKit/RestKit/">https://github.com/RestKit/RestKit/</a>	Network
4	BradLarson/GPUImage	4974	An open source iOS framework for GPU-based image and video processing	<a href="https://github.com/BradLarson/GPUImage">https://github.com/BradLarson/GPUImage</a>	Graphics
5	pokeb/asi-http-request	4811	Easy to use CFNetwork wrapper for HTTP requests, Objective-C, Mac OS X and iPhone	<a href="https://github.com/pokeb/asi-http-request">https://github.com/pokeb/asi-http-request</a>	Network
6	jdg/MBProgressHUD	4354	MBProgressHUD - Customizations	<a href="https://github.com/jdg/MBProgressHUD">https://github.com/jdg/MBProgressHUD</a>	View
7	rs/SDWebImage	4321	Asynchronous image downloader with cache support with an UIImage category	<a href="https://github.com/rs/SDWebImage">https://github.com/rs/SDWebImage</a>	Network
8	facebook/facebook-ios-sdk	4090	Use the Facebook SDK for iOS to integrate with Facebook, help build engaging social apps, and get more installs.	<a href="https://github.com/facebook/facebook-ios-sdk">https://github.com/facebook/facebook-ios-sdk</a>	Social
9	magicalpanda/MagicalRecord	4047	Super Awesome Easy Fetching for Core Data	<a href="https://github.com/magicalpanda/MagicalRecord">https://github.com/magicalpanda/MagicalRecord</a>	Data Store
10	johnnezang/JSONKit	3898	Objective-C JSON	<a href="https://github.com/johnnezang/JSONKit">https://github.com/johnnezang/JSONKit</a>	Network
11	ccgus/fmdb	3799	A Cocoa / Objective-C wrapper around SQLite	<a href="https://github.com/ccgus/fmdb">https://github.com/ccgus/fmdb</a>	Data Store
12	Inferis/ViewDeck	3607	An implementation of the sliding functionality found in the Path 2.0 or Facebook iOS apps.	<a href="https://github.com/Inferis/ViewDeck">https://github.com/Inferis/ViewDeck</a>	View
13	Grouper/FlatUIKit	3603	A collection of awesome flat UI components for iOS.	<a href="https://github.com/Grouper/FlatUIKit">https://github.com/Grouper/FlatUIKit</a>	View
14	Nimbus	3500	It provides well-documented, modular components that solve a number of common iOS software requirements.	<a href="https://github.com/jverkoey/nimbus">https://github.com/jverkoey/nimbus</a>	Utilities
15	ijigish/slate	3479	A window management application (replacement for Divvy/SizeUp/ShiftIt)	<a href="https://github.com/ijigish/slate">https://github.com/ijigish/slate</a>	View
16	Tapku	3330	tap + halku = tapku, a well crafted open source iOS framework	<a href="https://github.com/devinross/tapkullibrary">https://github.com/devinross/tapkullibrary</a>	View
17	stig/json-framework	3210	This framework implements a strict JSON parser and generator in Objective-C.	<a href="https://github.com/stig/json-framework">https://github.com/stig/json-framework</a>	Network
18	levey/AwesomeMenu	3123	Path 2.0 menu using CoreAnimation :)	<a href="https://github.com/levey/AwesomeMenu">https://github.com/levey/AwesomeMenu</a>	View
19	ReactiveCocoa/ReactiveCocoa	ReactiveCocoa (RAC) is an Objective-C framework for Functional Reactive Programming. It provides APIs for composing and transforming streams of values.		<a href="https://github.com/ReactiveCocoa/ReactiveCocoa">https://github.com/ReactiveCocoa/ReactiveCocoa</a>	Utilities
20	cocos2d/cocos2d-iphone	3046	cocos2d for iOS and OS X, built using Objective-C	<a href="https://github.com/cocos2d/cocos2d-iphone">https://github.com/cocos2d/cocos2d-iphone</a>	Utilities
21	path/FastImageCache	3012	iOS library for quickly displaying images while scrolling	<a href="https://github.com/path/FastImageCache">https://github.com/path/FastImageCache</a>	View
22	samvermette/SVProgressHUD	2975	A clean and lightweight progress HUD for your iOS app.	<a href="https://github.com/samvermette/SVProgressHUD">https://github.com/samvermette/SVProgressHUD</a>	View
23	OpenEmu/OpenEmu	2934	Emulator framework for Mac OS X	<a href="https://github.com/OpenEmu/OpenEmu">https://github.com/OpenEmu/OpenEmu</a>	Non-framework
24	gimenete/iOS-boilerplate	2726	iOS app template with lots of common tasks solved	<a href="https://github.com/gimenete/iOS-boilerplate">https://github.com/gimenete/iOS-boilerplate</a>	Utilities
25	iCarousel	2654	A simple, highly customisable, data-driven 3D carousel for iOS and Mac OS	<a href="https://github.com/nicklockwood/iCarousel">https://github.com/nicklockwood/iCarousel</a>	View
26	nothingmagical/cheddar-ios	2651	Cheddar for iOS app	<a href="https://github.com/nothingmagical/cheddar-ios">https://github.com/nothingmagical/cheddar-ios</a>	Non-framework
27	Induction/Induction	2601	A Polyglot Database Client for Mac OS X	<a href="https://github.com/Induction/Induction">https://github.com/Induction/Induction</a>	Data Store
28	QuickDialog	2601	Quick and easy dialog screens for iOS	<a href="https://github.com/escsz/QuickDialog">https://github.com/escsz/QuickDialog</a>	View
29	square/PonyDebugger	2547	Remote network and data debugging for your native iOS app using Chrome Developer Tools	<a href="https://github.com/square/PonyDebugger">https://github.com/square/PonyDebugger</a>	Network
30	MantleFramework / Mantle	2453	Model framework for Cocoa and Cocoa Touch	<a href="https://github.com/MantleFramework/Mantle">https://github.com/MantleFramework/Mantle</a>	Utilities
31	tombenner/nui	2451	Style iOS apps with a stylesheet, similar to CSS	<a href="https://github.com/tombenner/nui">https://github.com/tombenner/nui</a>	View
32	facebook/xctool	2443	xctool is a replacement for Apple's xcodebuild that makes it easier to build and test iOS and Mac projects.	<a href="https://github.com/facebook/xctool">https://github.com/facebook/xctool</a>	Non-framework
33	buctor/dev-recipes	2422	Open source code for the idevrecipies.com blog	<a href="https://github.com/buctor/dev-recipes">https://github.com/buctor/dev-recipes</a>	Non-framework
34	CocoaLumberjack/CocoaLumberjack	2420	A fast & simple, yet powerful & flexible logging framework for Mac and iOS	<a href="https://github.com/CocoaLumberjack/CocoaLumberjack">https://github.com/CocoaLumberjack/CocoaLumberjack</a>	Debug
35	twitter/twui	2420	A UI framework for Mac based on Core Animation	<a href="https://github.com/twitter/twui">https://github.com/twitter/twui</a>	Non-framework
36	arashpayan/appirater	2371	A utility that reminds your iPhone app's users to review the app.	<a href="https://github.com/arashpayan/appirater">https://github.com/arashpayan/appirater</a>	Utilities
37	rsms/kod	2343	Programmers' editor for OS X	<a href="https://github.com/rsms/kod">https://github.com/rsms/kod</a>	Non-framework
38	gotosleep/JASidePanels	2341	Reveal side ViewControllers similar to Facebook/Path's menu	<a href="https://github.com/gotosleep/JASidePanels">https://github.com/gotosleep/JASidePanels</a>	View
39	EGOTableViewPullRefresh	2332	A similar control to the pull down to refresh control created by atebits in Tweetie 2.	<a href="https://github.com/enormego/EGOTableViewPullRefresh">https://github.com/enormego/EGOTableViewPullRefresh</a>	View
40	jverdi/JVFloatLabeledTextField	2288	UITextField subclass with floating labels	<a href="https://github.com/jverdi/JVFloatLabeledTextField">https://github.com/jverdi/JVFloatLabeledTextField</a>	View
41	AlanQuatermain / AQGridView	2186	A grid view for iPhone/iPad, designed to look similar to NSCollectionView.	<a href="https://github.com/AlanQuatermain/AQGridView">https://github.com/AlanQuatermain/AQGridView</a>	View
42	tonymillion/Reachability	2157	ARC and GCD Compatible Reachability Class for iOS and MacOS. Drop in replacement for Apple Reachability	<a href="https://github.com/tonymillion/Reachability">https://github.com/tonymillion/Reachability</a>	Network
43	S.S. Toolkit	SSToolkit is a collection of well-documented iOS classes for making life easier by solving common problems all iOS developers face.		<a href="https://github.com/soffes/sstoolkit/">https://github.com/soffes/sstoolkit/</a>	Utilities
44	honcheng/PaperFold-for-iOS	2137	Paper folding animation for iOS	<a href="https://github.com/honcheng/PaperFold-for-iOS">https://github.com/honcheng/PaperFold-for-iOS</a>	View
45	ECSlidingViewController/ECSlidingViewController	2104	Customizable sliding view controller container.	<a href="https://github.com/ECSlidingViewController/ECSlidingViewController">https://github.com/ECSlidingViewController/ECSlidingViewController</a>	View
46	Cocoanetics/DTCoreText	2097	Methods to allow using HTML code with CoreText	<a href="https://github.com/Cocoanetics/DTCoreText">https://github.com/Cocoanetics/DTCoreText</a>	View
47	robbiehanson/CocoaAsyncSocket	2087	Asynchronous socket networking library for Mac and iOS	<a href="https://github.com/robbiehanson/CocoaAsyncSocket">https://github.com/robbiehanson/CocoaAsyncSocket</a>	Network
48	kif-framework/KiF	2056	Keep It Functional - An iOS Functional Testing Framework	<a href="https://github.com/kif-framework/KiF">https://github.com/kif-framework/KiF</a>	Testing
49	pandamonia/BlocksKit	2024	The Objective-C block utilities you always wish you had.	<a href="https://github.com/pandamonia/BlocksKit">https://github.com/pandamonia/BlocksKit</a>	Utilities
50	mattt/TTTAttributedLabel	2010	A drop-in replacement for UILabel that supports attributes, data detectors, links, and more	<a href="https://github.com/mattt/TTTAttributedLabel">https://github.com/mattt/TTTAttributedLabel</a>	View
51	gmoledina/GMGridView	A performant Grid-View for iOS (iPhone/iPad) that allows sorting of views with gestures (the user can move the items with his finger to sort them)		<a href="https://github.com/gmoledina/GMGridView">https://github.com/gmoledina/GMGridView</a>	View
52	tpillet/NSLogger	1976	Items with his finger to sort them)	<a href="https://github.com/tpillet/NSLogger">https://github.com/tpillet/NSLogger</a>	Debug
53	Oxced/iOS-Artwork-Extractor	1953	A modern, flexible logging tool	<a href="https://github.com/Oxced/iOS-Artwork-Extractor">https://github.com/Oxced/iOS-Artwork-Extractor</a>	Non-framework
54	MugunthKumar/MKNetworkKit	1953	Extract iOS artwork and emoji symbols into png files, generate glossy buttons png files	<a href="https://github.com/MugunthKumar/MKNetworkKit">https://github.com/MugunthKumar/MKNetworkKit</a>	Network
55	tomaz/appledoc	1923	Objective-c code Apple style documentation set generator.	<a href="https://github.com/tomaz/appledoc">https://github.com/tomaz/appledoc</a>	Utilities
56	shu223/iOS7-Sampler	1919	Code examples for the new functions of iOS 7.	<a href="https://github.com/shu223/iOS7-Sampler">https://github.com/shu223/iOS7-Sampler</a>	Non-framework
57	futuretap/InAppSettingsKit	1901	This iOS framework allows settings to be in-app in addition to or instead of being in the Settings app.	<a href="https://github.com/futuretap/InAppSettingsKit">https://github.com/futuretap/InAppSettingsKit</a>	Utilities
58	monospacecollective/MSDynamicsDrawerViewCon	1898	Container view controller that leverages UIKit Dynamics to provide a realistic drawer navigation paradigm.	<a href="https://github.com/monospacecollective/MSDynamicsDrawerViewControl">https://github.com/monospacecollective/MSDynamicsDrawerViewControl</a>	View
59	BigZaphod/Chameleon	1884	Chameleon is a port of Apple's UIKit for iOS to Mac OS X.	<a href="https://github.com/BigZaphod/Chameleon">https://github.com/BigZaphod/Chameleon</a>	Non-framework
60	leah/PullToRefresh	1873	A simple iPhone TableViewController for adding pull-to-refresh functionality.	<a href="https://github.com/leah/PullToRefresh">https://github.com/leah/PullToRefresh</a>	View
61	vfr/Reader	1839	A simple iPhone TableViewController for adding pull-to-refresh functionality.	<a href="https://github.com/vfr/Reader">https://github.com/vfr/Reader</a>	Utilities
62	ShareKit	1835	Drop in sharing features for all iPhone and iPad apps	<a href="https://github.com/ideashower/sharekit/">https://github.com/ideashower/sharekit/</a>	Social
63	mattt/FormatterKit	1794	'stringWithFormat:' for the sophisticated hacker set	<a href="https://github.com/mattt/FormatterKit">https://github.com/mattt/FormatterKit</a>	Utilities
64	CanvasPod/Canvas	1781	Animate in Xcode without code	<a href="https://github.com/CanvasPod/Canvas">https://github.com/CanvasPod/Canvas</a>	View
65	IFTTT/jazzHands	1780	A simple keyframe-based animation framework for UIKit. Perfect for scrolling app intros.	<a href="https://github.com/IFTTT/jazzHands">https://github.com/IFTTT/jazzHands</a>	View
66	domesticcatsoftware/DCintrospect	1776	Small library of visual debugging tools for iOS.	<a href="https://github.com/domesticcatsoftware/DCintrospect">https://github.com/domesticcatsoftware/DCintrospect</a>	Debug
67	timburks/nu	1775	The Nu programming language.	<a href="https://github.com/timburks/nu">https://github.com/timburks/nu</a>	Non-framework
68	omz/AppSales-Mobile	App Sales allows iPhone and Mac App Store developers to download and analyze their daily and weekly sales reports from iTunes Connect.		<a href="https://github.com/omz/AppSales-Mobile">https://github.com/omz/AppSales-Mobile</a>	Non-framework
69	pkluze/PKRevealController	A delightful view controller container for iOS, enabling you to present multiple controllers on top of one another.		<a href="https://github.com/pkluze/PKRevealController">https://github.com/pkluze/PKRevealController</a>	View
70	steipete/PSTCollectionView	1735	Open Source, 100% API compatible replacement of UICollectionViewController for iOS4.3+	<a href="https://github.com/steipete/PSTCollectionView">https://github.com/steipete/PSTCollectionView</a>	View
71	steipete/PSSStackedView	1728	Open source implementation of Twitter/iPad stacked ui - done right.	<a href="https://github.com/steipete/PSSStackedView">https://github.com/steipete/PSSStackedView</a>	View
72	macman/macgap	1715	Desktop WebKit wrapper for HTML/CSS/JS applications.	<a href="https://github.com/macman/macgap">https://github.com/macman/macgap</a>	Non-framework
73	myellow/MTStatusBarOverlay	1694	A custom iOS status bar overlay seen in Apps like Reeder, Evernote and Google Mobile App	<a href="https://github.com/myellow/MTStatusBarOverlay">https://github.com/myellow/MTStatusBarOverlay</a>	View
74	sprang/lnkpad	1689	A vector illustration app for the iPad.	<a href="https://github.com/sprang/lnkpad">https://github.com/sprang/lnkpad</a>	Non-framework
75	pieter/gitx	1683	A gitx clone for OS X	<a href="https://github.com/pieter/gitx">https://github.com/pieter/gitx</a>	Non-framework
76	rentsch/mogenerator	1678	Core Data code generation	<a href="https://github.com/rentsch/mogenerator">https://github.com/rentsch/mogenerator</a>	Data Store
77	ksuther/KSImageNamed-Xcode	1670	Xcode plug-in that provides autocomplete for imageNamed: calls	<a href="https://github.com/ksuther/KSImageNamed-Xcode">https://github.com/ksuther/KSImageNamed-Xcode</a>	Utilities
78	ShareKit/ShareKit	1649	Drop in sharing features for all iPhone and iPad apps	<a href="https://github.com/ShareKit/ShareKit">https://github.com/ShareKit/ShareKit</a>	Social
79	allending/Kiwi	1631	BDD for iOS	<a href="https://github.com/allending/Kiwi">https://github.com/allending/Kiwi</a>	Testing
80	samvermette/SVPullToRefresh	1630	Give pull-to-refresh & infinite scrolling to any UIScrollView with 1 line of code.	<a href="https://github.com/samvermette/SVPullToRefresh">https://github.com/samvermette/SVPullToRefresh</a>	View
81	mneorr/Alcatraz	1621	Xcode package manager	<a href="https://github.com/mneorr/Alcatraz">https://github.com/mneorr/Alcatraz</a>	Non-framework
82	JugglerShu/Xvim	1621	Xcode plugin for Vim keybindings	<a href="https://github.com/jugglerShu/Xvim">https://github.com/jugglerShu/Xvim</a>	Utilities
83	alloy/terminal-notifier	1617	Send User Notifications on Mac OS X 10.8 from the command-line.	<a href="https://github.com/alloy/terminal-notifier">https://github.com/alloy/terminal-notifier</a>	Non-framework
84	gh-unit/gh-unit	1614	Test Framework for Objective-C	<a href="https://github.com/gh-unit/gh-unit">https://github.com/gh-unit/gh-unit</a>	Testing

As of the 19th of January 2014

Large sized, functionality of a whole subject area.

Medium sized, package of functionalities from different areas, doesn't cover a single whole subject area, full functionality of a small area.

Enhancements to one class, object; templates

Redundant/deprecated/no longer supported/Mac OS only/non-framework
