

**ÜLESANNE:** Pogrammeerida robot nii, et ta pööraks plaksu peale.

**LAHENDUS:**

The image shows a screenshot of the LEGO Mindstorms software interface. At the top, there is a visual representation of a program sequence: a 'Wait' block followed by a 'Move' block. Below this, the 'Wait' block is expanded to show its settings: Control is set to 'Sensor', Port is set to '1', Sensor is 'Sound Sensor', and the 'Until' condition is set to a sound level. Below the 'Wait' block, the 'Move' block is expanded to show its settings: Port is set to 'C', Direction is 'Forward', Power is set to '45', Duration is '720 Degrees', and Next Action is set to 'Coast'. The 'Steering' section shows 'C' and 'B' ports selected.
