

S/N	Suggestions	Number of participants	Participants
1	Add tooltip to clickable unary constraint condition area with information about the values that can be entered	3	P1, P2, P5
2	Add unary constraint and conditions to the right side panel on activity click	2	P1, P10
3	Having a side panel for unary constraint and open on click	5	P3, P4, P6, P8, P10
4	Add an edit action on right click of the unary constraint to the current delete option	2	P1, P5
5	Add gray placeholder in the textfield for the unary constraint to show format	2	P3, P7
6	Allow multiple syntax for the Unary data conditions	1	P3
7	Make activation, correlation, and time condition boxes open by default in binary side panel	1	P6
8	Order attribute list	1	P2
9	Show only name in attribute list without activities or allow for expand all and collapse all features	1	P7
10	Add ability to search for an attribute or collapse all the attribute before hand for quick look and see	1	P10
11	Allow moving pane by default without using the hand	2	P3, P5
12	Map right click on empty space to move pane around	1	P6
13	Move hand icon away from control panel to the canvas	1	P9
14	Add a different color for the canvas or a toast in the corner that say new model started	1	P3
15	Was a bit confused with the new MP declare button, didn't know if to click or not	2	P9, P10
16	When adding binary constraint, draw the line and move it around with the mouse till the mouse drops on another activity	3	P3, P4, P7 (also tried to drag it from one activity to another)
17	Make the color of the highlight stronger when adding binary constraints	3	P5, P2, P10
18	Allow to drag bottom panel downward	3	P4, P6, P10
19	Add close button on the right of the bottom panel	1	P8
20	Add tooltip to hide button on the bottom panel	1	P8
21	Allow ability to add attribute by clicking on activity	4	P4, P5, P8, P9(maybe pre-select the activity and show the create attribute dialog)

22	Show name of constraint on line	2	P5, P7
23	Add a tooltip to the lines that shows the name of the constraint	1	P8
24	Have a fixed height for activity and wrap the attributes after a certain count with "..."	2	P6, P7 (limit attributes in activity)
25	Right side nav shouldn't be under the button and not bother the buttons at the top right	1	P6
26	Allow expanding of the right side panel to increase width	1	P3
27	Tried to edit activity name from the side panel	1	P7
28	Increasing the surface area for click	4	P9, P2, P5, P3
29	Allow the use of "delete" button on keyboard	1	P3, P4
30	Map all right click for editing and left click to show unary constraints	1	P6
31	Import should be "upload"	1	P8
32	When adding attributes allow to select all activities	1	P9
33	Allow playing of automaton view	1	P4
34	Merge mid connectors when they are on top of each other	1	P2
