

VectorizeImage Plugin – Usability Feedback

Thank you for testing the VectorizeImage Plugin! I really appreciate your time and feedback.

Step 1: Open the test [link](#) and try out the plugin. ~20-30 minutes

Step 2: After testing, please answer a few quick questions below. Your feedback will help improve the plugin. ~10–15 minutes

Reviewing the Plugin

First, I'll ask a few questions about the overall usability of the plugin – including how easy it was to set up and use. You can also leave a short comment to explain your ratings if you'd like.

Setting up the plugin *

	1	2	3	4	5	6	7	
Had troubles	☐	☐	☐	☐	☒	☐	☐	Very easy

Comment (optional)

The setup wasn't automatic, included a lot of manual steps, but they were properly documented.

This plugin's capabilities meet my requirements. *

	1	2	3	4	5	6	7	
Strongly disagree	☐	☐	☒	☐	☐	☐	☐	Strongly agree

Comment (optional)

The plugin would be a cool as an art tool, but it requires too much downscaling on most images. The end result cant also be converted back to png just to use as art. For game development, the quality of the results aren't quite there yet.

Using this plugin is a frustrating experience. *

	1	2	3	4	5	6	7	
Strongly disagree	☐	☒	☐	☐	☐	☐	☐	Strongly agree

Comment (optional)

When not downscaling enough or setting unrealistic parameters, it crashes quite easily. Although it wasn't frustrating in testing, it could be for some more serious workflows.

This plugin is easy to use. *

	1	2	3	4	5	6	7	
Strongly disagree	☐	☐	☐	☐	☒	☐	☐	Strongly agree

Comment (optional)

The plugin is simple to use, just have to set a few parameters and let it do its work. The documentation on the parameters wasn't working in my case though.

I have to spend too much time correcting things with this plugin. *

	1	2	3	4	5	6	7	
Strongly disagree	☐	☐	☐	☒	☐	☐	☐	Strongly agree

Comment (optional)

Requires a bit of tweaking to get it to work, but nothing too bad.

Generation Modes

Next, I'd like to ask a few questions about the different generation modes – Random, Edge, and Segment.

Please rate your experience with each and share any thoughts or suggestions you may have.

How would you rate the quality of the results from Random mode? *

	1	2	3	4	5	6	7	
Very poor	☐	☐	☐	☐	☒	☐	☐	Excellent

How easy was it to understand and use Random mode? *

	1	2	3	4	5	6	7	
Was not able to understand	☐	☐	☐	☐	☒	☐	☐	Very easy to use

Any comments or suggestions about Random mode? (optional)

How would you rate the quality of the results from Edge mode? *

	1	2	3	4	5	6	7	
Very poor	☐	☐	☐	☐	☐	☒	☐	Excellent

How easy was it to understand and use Edge mode? *

	1	2	3	4	5	6	7	
Was not able to understand	☐	☐	☐	☐	☒	☐	☐	Very easy to use

Any comments or suggestions about Edge mode? (optional)

.....
This had by far the best results.

How would you rate the quality of the results from Segment mode? *

	1	2	3	4	5	6	7	
Very poor	☒	☐	☐	☐	☐	☐	☐	Excellent

How easy was it to understand and use Segment mode? *

	1	2	3	4	5	6	7	
Was not able to understand	☐	☐	☐	☒	☐	☐	☐	Very easy to use

Any comments or suggestions about Segment mode? (optional)

The worst performer by far. Vectorizing took the longest and had the worst result. The parameter sliders were also not proportionate to the values you should probably be using.

Final Feedback and Suggestions

You're almost done! Please let us know whether you'd use this plugin in a real project and share any additional thoughts, suggestions, or ideas to help improve it.

Would you use this plugin in a real project? *

- ☐ Yes
- ☐ No
- ☒ Maybe

Why or why not? *

The plugin doesn't really excel in any workflow. For more serious projects, the results weren't quite there, also frequent crashes. As an artistic tool, you don't have good options to get the result out of Godot. If the plugin was improved, I could see myself using it.

What would you like to see added or improved (Optional)

Would be nice to see proper ways to export the results as an artistic tool. Would like to see better results for game development purposes. The UX was definitely not as simple as it could probably be as well. Lot's of menus, which only effect one mode. Could be simplified possibly.

Any final thoughts? (Optional)

Generates images in a cool style.

Google Vormid

VectorizeImage Plugin – Usability Feedback

Thank you for testing the VectorizeImage Plugin! I really appreciate your time and feedback.

Step 1: Open the test [link](#) and try out the plugin. ~20-30 minutes

Step 2: After testing, please answer a few quick questions below. Your feedback will help improve the plugin. ~10–15 minutes

Reviewing the Plugin

First, I'll ask a few questions about the overall usability of the plugin – including how easy it was to set up and use. You can also leave a short comment to explain your ratings if you'd like.

Setting up the plugin *

	1	2	3	4	5	6	7	
Had troubles	☐	☐	☐	☐	☐	☒	☐	Very easy

Comment (optional)

Easy, even though I have never used Godot before, the GIF in GitHub is very useful

This plugin's capabilities meet my requirements. *

	1	2	3	4	5	6	7	
Strongly disagree	☐	☐	☐	☐	☒	☐	☐	Strongly agree

Comment (optional)

Using this plugin is a frustrating experience. *

	1	2	3	4	5	6	7	
Strongly disagree	☐	☐	☒	☐	☐	☐	☐	Strongly agree

Comment (optional)

Sometimes crashes or takes too long, when using inappropriate parameters for generation.

This plugin is easy to use. *

	1	2	3	4	5	6	7	
Strongly disagree	☐	☐	☐	☐	☒	☐	☐	Strongly agree

Comment (optional)

Very understandable UI

I have to spend too much time correcting things with this plugin. *

	1	2	3	4	5	6	7	
Strongly disagree	☐	☐	☒	☐	☐	☐	☐	Strongly agree

Comment (optional)

Generation Modes

Next, I'd like to ask a few questions about the different generation modes – Random, Edge, and Segment.

Please rate your experience with each and share any thoughts or suggestions you may have.

How would you rate the quality of the results from Random mode? *

	1	2	3	4	5	6	7	
Very poor	☐	☐	☐	☐	☐	☐	☒	Excellent

How easy was it to understand and use Random mode? *

	1	2	3	4	5	6	7	
Was not able to understand	☐	☐	☐	☐	☐	☐	☒	Very easy to use

Any comments or suggestions about Random mode? (optional)

Random goated

How would you rate the quality of the results from Edge mode? *

	1	2	3	4	5	6	7	
Very poor	☐	☐	☐	☐	☒	☐	☐	Excellent

How easy was it to understand and use Edge mode? *

	1	2	3	4	5	6	7	
Was not able to understand	☐	☐	☐	☒	☐	☐	☐	Very easy to use

Any comments or suggestions about Edge mode? (optional)

Not all areas get vectorized seemingly

How would you rate the quality of the results from Segment mode? *

	1	2	3	4	5	6	7	
Very poor	☐	☐	☐	☒	☐	☐	☐	Excellent

How easy was it to understand and use Segment mode? *

	1	2	3	4	5	6	7	
Was not able to understand	☐	☐	☐	☒	☐	☐	☐	Very easy to use

Any comments or suggestions about Segment mode? (optional)

Some holes left in the image after generating

Final Feedback and Suggestions

You're almost done! Please let us know whether you'd use this plugin in a real project and share any additional thoughts, suggestions, or ideas to help improve it.

Would you use this plugin in a real project? *

- ☒ Yes
- ☐ No
- ☐ Maybe

Why or why not? *

Seems useful, the resulting artstyle is captivating, also can be useful if some basic images need vectorizing.

What would you like to see added or improved (Optional)

Any final thoughts? (Optional)

cool and easy to use

Generation Modes

Next, I'd like to ask a few questions about the different generation modes – Random, Edge, and Segment.

Please rate your experience with each and share any thoughts or suggestions you may have.

How would you rate the quality of the results from Random mode? *

	1	2	3	4	5	6	7	
Very poor	☐	☐	☐	☐	☒	☐	☐	Excellent

How easy was it to understand and use Random mode? *

	1	2	3	4	5	6	7	
Was not able to understand	☐	☐	☐	☐	☐	☒	☐	Very easy to use

Any comments or suggestions about Random mode? (optional)

How would you rate the quality of the results from Edge mode? *

	1	2	3	4	5	6	7	
Very poor	☐	☐	☐	☐	☒	☐	☐	Excellent

How easy was it to understand and use Edge mode? *

	1	2	3	4	5	6	7	
Was not able to understand	☐	☐	☒	☐	☐	☐	☐	Very easy to use

Any comments or suggestions about Edge mode? (optional)

How would you rate the quality of the results from Segment mode? *

1 2 3 4 5 6 7

Very poor ☐ ☐ ☐ ☐ ☒ ☐ ☐ Excellent

How easy was it to understand and use Segment mode? *

1 2 3 4 5 6 7

Was not able to understand ☐ ☐ ☐ ☒ ☐ ☐ ☐ Very easy to use

Any comments or suggestions about Segment mode? (optional)

Final Feedback and Suggestions

You're almost done! Please let us know whether you'd use this plugin in a real project and share any additional thoughts, suggestions, or ideas to help improve it.

Would you use this plugin in a real project? *

☐ Yes

☐ No

☒ Maybe

Why or why not? *

I don't use Godin, so it is hard to say, what for should I use this plugin.

What would you like to see added or improved (Optional)

The optimization could be improved, because the project crashed a few times while creating images.

Any final thoughts? (Optional)

Ideally, the guide could be more specific. I don't think that in a guide there should be such an emphasis on freely testing things, because if you don't know what you are doing, it's hard to compare different results and if you should use some variables. If someone wants to experiment, they can do that in their free time.

VectorizeImage Plugin – Usability Feedback

Thank you for testing the VectorizeImage Plugin! I really appreciate your time and feedback.

Step 1: Open the test [link](#) and try out the plugin. ~20-30 minutes

Step 2: After testing, please answer a few quick questions below. Your feedback will help improve the plugin. ~10–15 minutes

Reviewing the Plugin

First, I'll ask a few questions about the overall usability of the plugin – including how easy it was to set up and use. You can also leave a short comment to explain your ratings if you'd like.

Setting up the plugin *

	1	2	3	4	5	6	7	
Had troubles	☐	☐	☐	☐	☒	☐	☐	Very easy

Comment (optional)

Godot experience minimal but still easy

This plugin's capabilities meet my requirements. *

	1	2	3	4	5	6	7	
Strongly disagree	☐	☐	☐	☐	☐	☒	☐	Strongly agree

Comment (optional)

I can easily vectorize my chosen images (even if I have to downscale it heavily)

Using this plugin is a frustrating experience. *

	1	2	3	4	5	6	7	
Strongly disagree	☐	☐	☒	☐	☐	☐	☐	Strongly agree

Comment (optional)

Frustration on wrong parametres and it crashing the application when generated

This plugin is easy to use. *

	1	2	3	4	5	6	7	
Strongly disagree	☐	☐	☐	☐	☐	☒	☐	Strongly agree

Comment (optional)

change easily parametres and images to what you wish. Slight struggle to know what each parametre does at the start

I have to spend too much time correcting things with this plugin. *

	1	2	3	4	5	6	7	
Strongly disagree	☐	☐	☒	☐	☐	☐	☐	Strongly agree

Comment (optional)

binary search for best looking

Generation Modes

Next, I'd like to ask a few questions about the different generation modes – Random, Edge, and Segment.

Please rate your experience with each and share any thoughts or suggestions you may have.

How would you rate the quality of the results from Random mode? *

	1	2	3	4	5	6	7	
Very poor	☐	☐	☐	☐	☐	☐	☒	Excellent

How easy was it to understand and use Random mode? *

	1	2	3	4	5	6	7	
Was not able to understand	☐	☐	☐	☐	☐	☐	☒	Very easy to use

Any comments or suggestions about Random mode? (optional)

It works well with some random spikes but not too noticeable

How would you rate the quality of the results from Edge mode? *

	1	2	3	4	5	6	7	
Very poor	☐	☐	☐	☐	☐	☒	☐	Excellent

How easy was it to understand and use Edge mode? *

	1	2	3	4	5	6	7	
Was not able to understand	☐	☐	☐	☐	☐	☒	☐	Very easy to use

Any comments or suggestions about Edge mode? (optional)

works well with simple pictures but dot spacing makes little to no difference when increased on complicated pictures

How would you rate the quality of the results from Segment mode? *

	1	2	3	4	5	6	7	
Very poor	☐	☐	☐	☐	☒	☐	☐	Excellent

How easy was it to understand and use Segment mode? *

	1	2	3	4	5	6	7	
Was not able to understand	☐	☐	☐	☐	☐	☐	☒	Very easy to use

Any comments or suggestions about Segment mode? (optional)

some glitches happened, where colours disappeared, mostly near black lines in between colours

Final Feedback and Suggestions

You're almost done! Please let us know whether you'd use this plugin in a real project and share any additional thoughts, suggestions, or ideas to help improve it.

Would you use this plugin in a real project? *

- ☒ Yes
- ☐ No
- ☐ Maybe

Why or why not? *

To make some mosaic images or to make a custom ground that looks random

What would you like to see added or improved (Optional)

.....

Any final thoughts? (Optional)

good plugin that can be useful when used in right hands

Google pole seda sisu loonud ega heaks kiitnud.

VectorizeImage Plugin – Usability Feedback

Thank you for testing the VectorizeImage Plugin! I really appreciate your time and feedback.

Step 1: Open the test [link](#) and try out the plugin. ~20-30 minutes

Step 2: After testing, please answer a few quick questions below. Your feedback will help improve the plugin. ~10–15 minutes

Reviewing the Plugin

First, I'll ask a few questions about the overall usability of the plugin – including how easy it was to set up and use. You can also leave a short comment to explain your ratings if you'd like.

Setting up the plugin *

	1	2	3	4	5	6	7	
Had troubles	☐	☐	☐	☐	☐	☐	☒	Very easy

Comment (optional)

Didnt have to enable anything just drop the addons folder and it works. Very simple

This plugin's capabilities meet my requirements. *

	1	2	3	4	5	6	7	
Strongly disagree	☐	☐	☐	☐	☐	☒	☐	Strongly agree

Comment (optional)

Plugin achieves what it sets out to do, some modes dont give good results but random seems to work very well.

Using this plugin is a frustrating experience. *

	1	2	3	4	5	6	7	
Strongly disagree	☐	☒	☐	☐	☐	☐	☐	Strongly agree

Comment (optional)

It was a bit annoying having to have the README open to see what values are recommended maybe could implement when you hover over the property it gives more information there

Maybe have presets?

This plugin is easy to use. *

	1	2	3	4	5	6	7	
Strongly disagree	☐	☐	☐	☐	☒	☐	☐	Strongly agree

Comment (optional)

I have to spend too much time correcting things with this plugin. *

	1	2	3	4	5	6	7	
Strongly disagree	☐	☐	☒	☐	☐	☐	☐	Strongly agree

Comment (optional)

Maybe it was a bit hard to keep track of the different properties for example accidentally filled in a wrong value into the wrong property box, but that just be user error.

Generation Modes

Next, I'd like to ask a few questions about the different generation modes – Random, Edge, and Segment.

Please rate your experience with each and share any thoughts or suggestions you may have.

How would you rate the quality of the results from Random mode? *

	1	2	3	4	5	6	7	
Very poor	☐	☐	☐	☐	☐	☒	☐	Excellent

How easy was it to understand and use Random mode? *

	1	2	3	4	5	6	7	
Was not able to understand	☐	☐	☐	☐	☒	☐	☐	Very easy to use

Any comments or suggestions about Random mode? (optional)

How would you rate the quality of the results from Edge mode? *

	1	2	3	4	5	6	7	
Very poor	☐	☐	☐	☐	☐	☒	☐	Excellent

How easy was it to understand and use Edge mode? *

	1	2	3	4	5	6	7	
Was not able to understand	☐	☐	☐	☐	☒	☐	☐	Very easy to use

Any comments or suggestions about Edge mode? (optional)

How would you rate the quality of the results from Segment mode? *

	1	2	3	4	5	6	7	
Very poor	☐	☐	☒	☐	☐	☐	☐	Excellent

How easy was it to understand and use Segment mode? *

1 2 3 4 5 6 7

Was not able to understand ☐ ☐ ☒ ☐ ☐ ☐ ☐ Very easy to use

Any comments or suggestions about Segment mode? (optional)

Final Feedback and Suggestions

You're almost done! Please let us know whether you'd use this plugin in a real project and share any additional thoughts, suggestions, or ideas to help improve it.

Would you use this plugin in a real project? *

- ☐ Yes
- ☐ No
- ☒ Maybe

Why or why not? *

I don't really work alot with images so I dont think the plugin is really designed for me just becaues I don't find a use for it doesn't mean its not useful for someone else.

What would you like to see added or improved (Optional)

Maybe add tooltips to the inspector, to help users quickly indentfiy what each threshold excatly does. Maybe have presets fro the generation modes so a dropdown that allows you to pick different presets that fill in the properties themselves for more ease of use.

Any final thoughts? (Optional)

Google pole seda sisu loonud ega heaks kiitnud.
