

User's Guide

There are two different versions of the map. Standard version and one with less vegetation in case the user's computer hardware is below the recommended system requirements.

To gain access to these tracks:

- Download, install and start the SVL Simulator according to the instructions found here: <https://www.svl simulator.com/docs/installation-guide/installing-simulator/>
- Ask for simulation access by following these two links:
Tartu (less vegetation):
<https://wise.svl simulator.com/simulations/profile/530839c0-f431-4132-9108-435820a207da>
Tartu (standard):
<https://wise.svl simulator.com/simulations/profile/7d7c8ca8-c195-4d27-a683-7dcf62079869>
- Start the simulation found under the „Simulation -> Available from Others“ tab by using the guidelines found here: <https://www.svl simulator.com/docs/getting-started/getting-started/>
