

25. 1965.
Sir

received the 2. Jun 1756. EB.

1691 + 1771.

I was duly favoured with your kind letter and the beginning of this month I received the Catalogue of the Imperial Museum, with the plans of the Buildings of the Academy which you was so good as to send me, for which I return you my most sincere thanks. The Gentleman to whom you delivered them, being unknown to me, I have sent you this parcel by the hands of Mr. Mahew who will deliver them safe to your hands. if the seeds which I now send you for your private Garden, are not of such sorts as you want, if you will be so good as to send me a Catalogue of your wants, I will forward the seeds to you next Autumn, that you may have them ready for sowing in the Spring. and pray inform me if your Garden is large, that I may supply you with a sufficient quantity of each sort. as many of our seeds will be ripe times enough to send by the last Ships in the Autumn, so that will be the best time for sending them to you

14
I have enclosed a small parcel of seeds for the Botanic
Garden at Petersburg, which I desire you will deliver to the
professor of Botany. I shall be glad to supply your Garden
with any seeds you may want from England, if I have a list
of them sent me. and I shall be greatly obliged to the professor
for such seeds as can be spared from your Country, and particularly
for those hereafter mentioned. or any new sorts from Siberia.

I am Sir

Chelsea April. 16. 1756
