85 Broad Street Buildings 1
London, Oct. 15, 1853

Sir

I send herewith a paper
on the construction of an Electric
Telegraph around the Globe, via
Bering's Straits, & have had it
translated expressly for your
journal, and I hope you will
be willing to publish it, as it
is a proposition of much interest
to the Russian Government and people

Yours Truly

Edwin Burnett

ad No 461.
