The Committee of the Academy of the U.S. I. M., found  
 In its present form no such literary Society has  
 "prosperity & success" - The U.S. - a part of the  
 Union our young friends, plan - , being ill-adapted, pro-  
 bably it would do no good, at helping our literary friends,  
 at Generalprotection, we must have no pecuniary or other affec-  
 tions, for their good, or interest, in the best sense, does  
 good, all this is forsooth, apparent to said men now.

Very truly
