### Springer Open Choice uptake affects 2011 journal pricing

Springer has analyzed the uptake of its open access option Open Choice for articles published in 2009 and is pleased to share its impact on 2011 pricing.

Springer Open Choice allows authors to publish their article with open access in exchange for payment of a fee, for the majority of its journals. The articles are then immediately freely available and the copyright remains with the author, and articles are published under the Creative Commons Attribution Non-Commercial License. These articles can be self-archived with immediate access.

### Springer and Helmholtz Association sign agreement for open access membership

Cooperation makes open access publishing easier for scientists

Following the launch of SpringerOpen, the Helmholtz Association has signed a new agreement for an open access membership. This agreement covers article processing charges for authors from the participating Helmholtz research centres for articles published in SpringerOpen and BioMed Central journals.

SpringerOpen journals are peer-reviewed open access journals in emerging and interdisciplinary fields that complement both the established Springer journal portfolios and BioMed Central's growing list of over 200 life science and biomedicine journal titles. SpringerOpen journals are e-only and publish articles under the Creative Commons Attribution license. According to this license, Springer will not reserve any exclusive commercial rights.

**springeropen.com****SpringerOpen**  **Springer**

## Open access for authors in all disciplines

SpringerOpen makes it easier than ever for authors to comply with open access mandates, retain copyright and benefit from Springer's trusted brand.

SpringerOpen is a forthcoming series of open access journals. The first titles will be open to receive submissions soon and start publishing in early 2011.

The screenshot shows the Springer Open Access website. The header features the Springer logo and navigation links: HOME, MY SPRINGER, SUBJECTS, SERVICES, IMPRINTS & PUBLISHER, and ABOUT US. A search bar is located on the right. The main content area is titled "» Open Access" and includes a large image of a hand holding a key with the Springer logo on it. Below the image, the text reads: "Springer's portfolio of open access publishing" and "Learn more about our Open Choice journals with the option to publish open access and about our fully open access titles...". To the right of the main content, there is a section titled "LEARN MORE ABOUT OPEN ACCESS" with links to "Open Choice", "Fully Open Access", "Authors' Rights", and "Open Access Track Record". Below this, there is a yellow box with the text "Your research. Your rights." and "All you need to know on open access compliance, self-archiving and copyright...". At the bottom, there is a section titled "Springer and Open Access" with the text: "Springer offers a variety of options for you to publish your research as open access with free use to everyone, everywhere. Our open access choices allow you to easily comply with the open access".
